The Spirit of the new office

2 We as Apex Portable Cabin take this opportunity to introduce ourselves as leading manufacturers and suppliers of quality and cost-effective portable cabins for Site Office, Godowns (Storage), ATM, Mess, Sanitary, Luxurious Cottages, Security Guard Cabins, Laboratory, Farm houses, Resorts, Industrial Projects, Film Studios, Re-locatable colonies, Drilling Camps, Business Stall, Shop etc.

These portable workstations are the ideal choice for those who are looking for crew cabins or mobile office. Our workstations are well furnished with world-class amenities. These are equipped with modern facilities to serve the very use of office environment. Our range of workstations have modular designed features combined with practical and well-furnished interiors ensure the highest levels of user satisfaction. These have well-built make to withstand critical temperature and weather conditions. **Apex Cabin** has been in business of manufacturing portable cabins since a decade. We have expanded our business by supplying quality portable cabins to our customers and have many successful commercial, industrial and residential projects completed across the country. Our portable cabins are best in quality with excellent aesthetics. We create exceptional value for our customers by understanding their needs and then providing the right quality products and services at the right time, every time.

Advantages of Portable / Mobile Cabin: Bu

Our Portable Cabin is essential for those customers who execute their work on different locations / sites. They can mount the cabin either in temporary or permanent basis and after execution of their projects / work they can dismantle the same without any destruction. Those companies who run number of projects in same time can use the container for Business Conference, staying for their executives or for also employer who can stay in luxurious style on site without paying any luxury charges.

Construction details of M.S. Portable Office Cabin (Lift & Shift type): This specification is only for newly fabricated cabins

3

Shell: The shell shall be fabricated from tested quality steel duly welded, comprising of base frame, peripheral structure, self draining roof, entry doors and of windows (as per requirement). The eight corners shall be sufficiently strengthened to facilitate transportation, lifting and placing.

Side and End Walls: The side and end frame shall be made out of pressed sections of suitable profiles/pillars of sufficient strength. Exterior wall shall be made up of 1.4 swg. MS specially corrugated sheet whereas 9 mm particle board will be used for interior walls. The steel sheet shall be treated for corrosion resistant. Panels shall be vertically corrugated, sheet shall be continuously welded to top side and base structure so as to offer better strength to weight ratio. All gaps will be sealed at edges and at seams, bottom etc to prevent ingress of moisture.

Base Frame: The base frame shall be made of pressed mild steel channel section. The main structural element shall be of 75 mm x 75mm and cross member shall be of 'C' channels section size 100 mm x 50 mm

Flooring Systems: On the bottom frame 18 mm thick plywood, bison panel/E board shall be fixed by means of self tapping screw. PVC vinyl flooring shall be fixed on the panel.
